

## Do's and Don'ts for Successful Submission of Roundup Clothing Contest Entries

1. **Read and follow instructions carefully for all contest guidelines.**
2. Check and double check your spelling, sentence structure, neatness, and overall writing.
3. Send only the number of entry forms indicated in the guidelines for each contest. Two copies are requested, so send two, not three or four. More is not better.
4. Pictures should be attached to the correct form. Pictures may be stapled to the form or embedded into the document.
5. The only entry forms that are acceptable are those found on the 4-H website for the 4-H Clothing Program. **Do not** reformat any of the documents to accommodate the amount you want to place on your entry.
6. Be sure to include your leadership and community service experiences in the appropriate space on the entry forms.
7. The goals you state on the entry form **should** be reflected in 'what you have learned.'
8. Though every effort is made at the state level to check and double check that entries are actually received, it is challenging to ensure this. **Please** check with your county Extension agent to make sure that the form is mailed in time to reach Angela McCorkle's office **no later than the deadline date.**
